Ask City Help For Canyon Taxpayers

Proposed All Property Assist In Paying For Pool And Street Improvements

Five important suggestions looking toward relief of property owners in Canyon Park A. & L. District No. 2 will be put forward by J. A. Benell, representing the county special assessment relief committee, at a meeting of the property owners and the City Council next Wednesday, according to Ben J. Grammel, 669 Sturtevant Drive, who recently discussed the subject of Canyon Park assessment relief with Benell, preparatory to next week's meeting. Grammel says Benell will suggest:

(1) That inasmuch as M. I. District No. 1—the swimming pool—is of benefit to the entire city, although the Canyon district alone bears the cost, the city should take up its assessment on the property, making it retroactive. That similar action should be taken by the city regarding the 120 acres of water-bearing lands owned by the city and now excluded from the district.

(2) That the city pick up the bonds now held by investment houses, and as soon as readjustment is made, sufficient funds be paid in to reimburse whatever fund they may be "temporarily borrowed" from.

(3) That in making the levy for next year the city should not pyramid unless compelled to do so under mandamus proceedings, as such pyramiding places a heavy burden on those paying taxes as well as those who will in the future redeem their property. That if the city must pyramid it should make the levy sufficient to include not only the delinquencies of the past year, but a sum sufficient for the year to come.

(4) That if any bondholder indicates his willingness to sell at a reduction, his bond should be picked up and held by the city until refinancing is completed.

(5) That while refinancing is in progress, a survey and readjustment of the properties should be made according to benefits derived from the paving.

Benell's final report on the financial status of the district, which will be used as a basis of discussion at next week's meeting, represents the district's total current debt as \$61,280.45. This figure includes:

Bonds outstanding March 1, 1937 — \$40,832.05; matured and unpaid interest — \$1666.36; overlapping liens — \$4106.10; approximate general taxes — \$6500; accumulated levy delinquency up to 1936-37 — \$8175.94. Bonds defaulted total \$4000.

Total cost of improvement to date is given as \$30,363.82, with property paid in to date totalling \$23,307.95 (77 per cent of the cost of the improvement).

Matured and unpaid items to date and including July 2, 1937, totaled \$7055.87. Benell's report states that "the current intrinsic bond worth in the district was presumed to have been materially affected by failure to pay taxes, but inasmuch as this tax delinquency did not reach an anticipated point of affecting the intrinsic worth of the bond for the current year and may not next year unless a larger delinquency occurs, the current intrinsic bond worth is 70. Current visible bond collateral is 87, the report adds.

The district's actual delinquency on matured and unpaid items as of March 10, 1937, is about 16 per cent," the report continues. "It is therefore easy to see that the bondholder's position is not precarious at this time.

"Conference with a few of the bondholders on a prospective refunding plan has not met with much success for the reason that the district is fairly well paid up."

Woman's Clubs Will Meet Under The Vine Next Wednesday

Wonders Whether It Pays To Be A Good Samaritan

Miss Lena M. Lee, 88 East Alegria avenue, yesterday was wondering whether it pays to play the good Samaritan.

In exchange for his services as gardener, she recently offered to provide Charles Mann, address unknown, with room and board. All went well the first week. Mann dutifully tended the garden, pruned the shrubs and did numerous odd jobs about the place.

Then on March 22, after having cashed three of Miss Lee's checks at various times at Noyes Market, 440 Sturtevant Drive, Mann is alleged to have signed his employer's name to an \$18 check, cashed it and "left town." Police are looking for him.

Learn About California Tonight

Man Who Is Selling The Southland To The Nation Will Speak Here

Sierra Madreans have a real treat in store for them tonight when, under the auspices of the Chamber of Commerce, Charles A. Horowitz, personal relations director of the All-Year Club of Southern California—reputed to be the best informed man in the State on its varied beauties, scenic wonders, industries and resources—will speak in the auditorium of the grammar school. Mr. Horowitz is probably the most interesting talker that has been heard here in years. In a recent conference with directors of the Chamber of Commerce he so greatly interested the members that they made a special effort to get him back so that the townspeople might have an opportunity to hear his story of California as told in practically every big city in America. Everywhere he delighted his audiences as he will his Sierra Madre listeners tonight.

Rollin C. Lewis, president of the Chamber of Commerce, will present Mr. Horowitz following a splendid musical program that will feature a number of Sierra Madre's best known artists.

Prior to the meeting Mr. Horowitz, directors of the Chamber of Commerce and L. R. Goshorn will be dinner guests of the Wistaria Association at the Wistaria Fete.

Hard-Boiled General In A New Role

A.E.F. Veteran Tells Kiwanis Effect Of 4-Point Program That Changed His Life

How a hard-boiled Spanish-American War veteran switched from a life of "paganism" to one of spiritual solemnity by enrolling in the Oxford group movement was related to Kiwanians Tuesday noon by General Earl Luce, A.E.F.

Little thought of the spiritual notated the general's early life, he said. Thanks to his wife's influence, however, he attended several meetings of the Oxford group and soon became an active and prominent member of the movement. The general credited the latter with "remoulding" his life.

Explaining the Oxford group, Gen. Luce declared it stands for "honesty, purity, unselfishness and love. If you follow these four principles," he said, "there is little left that is bad."

Introduced by Capt. E. G. Everett, the general, who hails from Minneapolis, Minn., invited Kiwanians to attend a "Quiet Time" of the group at Pasadena Civic Auditorium at 8:30 p.m. April 19. Gen. Luce and Col. H. B. Hersey were guests of Capt. Everett.

Dr. E. Toral Seat, a guest of Rev. A. O. Pritchard, sang two numbers, the music of which he composed to poems written by his 7-year-old daughter.

Several Kiwanians were present from Pasadena, San Gabriel and Monrovia. In the absence of Dr. M. H. A. Peterson, club president, Vice-President Roy Pickett presided.

It was announced that local Kiwanians will meet today at 11:45 a.m. at the city hall and then motor over to an inter-club meeting at Altadena.

Facial For City's Main Stem Adds To Its Appearance

Joining in city-wide efforts to present to this year's Wistaria Fete guests an impression of Sierra Madre that will not soon be forgotten, the city street department this week gave the city's east-west main stem a much-needed "facial."

Honor Couple Married For 50 Years

Friends Come From Far And Near To Celebrate With The M. D. Welshers

Celebrating fifty years of wedded bliss, Mr. and Mrs. M. D. Welsher, of 517 West Highland avenue, long time and highly regarded residents of Sierra Madre, were honored guests at a 5 o'clock family dinner Easter Sunday at El Paseo Inn.

Yellow ranunculus, daffodils and candles in great profusion carried out the golden color scheme of the beautifully appointed dinner.

Host and hostesses were Mr. and Mrs. Fehsee Seelye, of Pasadena, and Miss Helene Seelye, of Santa Barbara, Mr. and Mrs. Welsher's nieces and nephew.

Present at the dinner, besides 24 relatives were Mr. and Mrs. J. Kraft, of West Highland avenue, who observed their 46th wedding anniversary Wednesday, and their two daughters, Elsa and Gladys.

Among out-of-town guests were Mrs. Welsher's brother and wife, Mr. and Mrs. Charles Seelye, of Kingman, Ariz.; Mr. and Mrs. August Kramer and daughter, Miss Marie Kramer, of Ontario, and Mr. and Mrs. Will Seelye, of Santa Ana.

Married in Hartland, N.Y., in 1887, the Welshers came to Sierra Madre in 1909 and for 20 years Mr. Welsher conducted a big market in the old City Hall Building at Baldwin avenue and Sierra Madre Blvd.

Following the dinner, the remainder of the evening was passed at the Welsher home.

Good wishes were expressed by Mr. and Mrs. Welsher's many friends and relatives with beautiful flowers, cards and gifts.

New Bright Light In Downtown Area Gives City Color

Coincident with the movement to brighten up the city for the benefit of sightseers and prospective residents attracted to Sierra Madre by the greatest of all Wistaria festivals, a huge neon sign this week was installed atop the Sierra Madre Hotel.

Measuring eight feet in length, the sign is double-sided and may be seen from one end of the city to the other.

Its appearance at night adds a striking and up-to-date note to the downtown area.

Increased business as a result of this spring's racing season plus better business conditions generally prompted the purchase of the sign, the hotel management stated.

City Planners Of Whole County Here Tomorrow

Members of the association of city planners of Los Angeles county will meet tomorrow noon for a gala outdoor luncheon at the Wistaria Fete.

Charles Gibbs Adams, noted Southland horticulturist, will deliver the main talk of the day on "Beautiful and Efficient Suburban Highways," a subject of intense interest to many Sierra Madreans.

Mrs. W. J. Lawless, whom the association declares it is privileged to honor because "she is one of the very few individuals who actually puts into practice what she preaches," will discuss the history of the great vine at Scenic Point. In addition, there will be a brief report on housing and planning legislation.

Perley Poore Sheehan will also speak.

FAMOUS STURTEVANT TRAIL PACK TRAIN BROKEN UP AS LAST OF ANIMALS IS SOLD

"JUDY," "Jada" and "Cricket," three Spanish mules, representing the last of Mrs. Corum's famous pack train, have been sold to James Steele, Los Angeles contractor and son of Frank Steele, proprietor of First Water Camp, who is now building a pack station at Chantrey Flats.

The animals will form the nucleus of a pack train which Steele will operate out of his new Chantrey Flats station. When completed the latter will include corals, a mule shed, a hay barn and a 4-room house for a resident overseer. Until the station is ready the mules will be stabled at the old ranger station at First Water.

Sale of the animals saw the final breaking up of Mrs. Corum's famed 20-year old mule train. "Gladys," a burro, was sold to Charles Cliff, of Pasadena. Glen "Kelly," one of Mrs. Corum's pet burros, went to C. E. Burge, present owner of Mrs. Corum's old home at the foot of Sturtevant Trail. Mrs. Corum still has two of her horses. She will sell

Troth Of Miss Morgridge Announced

Romance Of Young Artist And Composer Accompanist Told At Recital

Confirming rumors aired by close friends of the couple for more than a year, the impending marriage of Miss Elizabeth Morgridge, talented Sierra Madre violinist, and Harlow John Mills, well-known pianist-composer and Miss Morgridge's accompanist in many recitals, was revealed at a benefit recital Wednesday night at the Vista del Arroyo Hotel in Pasadena. The news was confirmed by Miss Morgridge's family yesterday.

Seeming to sweep the two players along together in a single mood of romantic and sympathetic understanding, their playing reached its climax in the familiar "Rondino" (Beethoven-Kreisler). The spell of its flowing rhythm captured the capacity audience.

Miss Morgridge is the daughter of Mr. and Mrs. George B. Morgridge, of 19 West Orange Grove avenue. Her father was for many years editor and publisher of THE NEWS.

The friendship between the violinist and her accompanist began when they first played together three years ago.

Select Judges To Pass On Poems In Vine Contest

The poet laureate of the General Federation of Women's Clubs, a college president and the leading woman radio and platform commentator of this section are enthusiastic enough over Sierra Madre's Wistaria Vine to have consented to judge the Wistaria Poetry Contest, according to Ralph Cheyney. Specifically, Angela Morgan, Dr. Remsen D. Bird, President of Occidental College and leader in many cultural and civic movements, and Mrs. Lillian Burkhardt Goldsmith will pick the three prize-winners among the poems inspired by the Wistaria vine submitted anonymously by April 10th to the Wistaria Association or its Poetry Chairman, Mr. Cheyney. Already many have been received.

April 17, the fete's last Saturday, will be Poets' Day at Scenic Point. The day will end with a grand poetry tournament and musicals at which the winning poems will be read and their authors announced. The Poetry Tournament is a brand new innovation.

At its next meeting the P.T.A. will ballot on officers for the coming year, the following nominations having been made:

Mrs. Paul Carter, first vice-president; Mrs. Gladys Albright, second vice-president; Mrs. Stanley Wood, recording secretary; Miss Betty Newton, corresponding secretary; E. E. Hitchcock, treasurer; Mrs. Herbert Dowling, historian; Mrs. Pat West, ways and means chairman; Mrs. Mabel Nicoloff, welfare and C. Hall Perry auditor.

Many interesting news items were crowded out of this week's NEWS by failure of our friends to remember the importance of early copy and the deadline. They will appear next week.

Hit-Run Charged To Trucker Who Hit Pastor's Car

Enis Sanchez, 148 West Highland avenue, Monday was cited to appear in police court April 5 to answer a charge of hit and run driving after backing into a car belonging to Rev. A. O. Pritchard, 139 West Orange Grove avenue, and then driving off.

The force of the impact nearly turned Mr. Pritchard's car over, according to Ray Leach, an employee at the Central Garage, who witnessed the accident.

The left front door of the Pritchard car was badly damaged.

Sanchez, together with two other Mexicans who were riding in his truck at the time of the accident, were located later in the morning by Chief McMillan.

The accident occurred on South Baldwin avenue in front of the postoffice.

Bandits Draw Life Terms In Prison

Pair Who Robbed Gas Stations And Kidnapped Attendants Are Sentenced

Daniel Forsythe and Charles Trotter, captured recently by Pasadena police and identified by Ronald Pulling, 382 West Montecito avenue, as the "slugger bandits" who robbed the service station at 505 South Sierra Madre avenue, at which he is an attendant, and then brutally slugged him January 28, Monday were sentenced to life prison terms "without the privilege of pardon or parole." Sentence was pronounced by Judge Frank C. Collier of Pasadena Superior Court.

On they way down to the sheriff's escape-proof van, both boasted they would repeat their performances — provided they wouldn't hang — if they had their lives to live over again.

A broad smile played across Forsythe's face as he left the courtroom. Trotter showed no emotion save for a few drops of moisture on his forehead. Watching the pair exit was Forsythe's wife, quietly seated just outside the court rail.

Charged with a series of robberies and kidnapping, Forsythe and Trotter at the last moment changed their pleas to guilty. In court surrounded by armed police and sheriff's deputies, each was sentenced to two life terms, to run consecutively, and to four terms of ten years, also to run consecutively.

Taking no chances, police were outside the courtroom on the ground in case the men should try to dive out a window. The courtroom door was guarded by an officer holding a sawed-off shotgun. Armed deputy sheriffs were in the aisles and inside the court rail. As soon as the sentences were imposed, both men were immediately handcuffed.

Deadline For The Payment Of '36-37 Taxes Is Near

Tax payments averaging \$200,000 daily are piling up a record-breaking total at the office of the county treasurer and tax collector.

The deadline for payment of 1936-37 taxes without the 3 per cent penalty is April 20, after which a fee of 50 cents per item will be added to the delinquent penalty on all unpaid tax bills, Treasurer Howard L. Byram points out.

Civic organizations here will play host to their affiliated bodies throughout the Southland at gala luncheon and dinner meetings under the wistaria vine during the coming two weeks.

Scores of out-of-town clubs are keenly anticipating their respective "days" at the Fete, and reservations yesterday were pouring in on Wistaria Association officials.

By means of these meetings, the Chamber of Commerce, the Kiwanians, the fire department, Red Cross chapter and other local organizations are planning to spread the praises of Sierra Madre's Wistaria Fete to virtually every community in Southern California. The complete schedule follows:

Fete Crowds Promise A Record

Wistaria Festival Of 1937 Proves A Revelation To Visiting Thousands

More than 3200 wide-eyed sightseers had inspected Sierra Madre's giant Chinese wistaria vine up to yesterday morning—and had departed singing the praises of the city's most elaborate and beautiful Fete.

Assuring the success of this year's festival, a total of 1800 persons journeyed up to Scenic Point Easter Sunday, drank in the vision of lavender loveliness and pronounced the spectacle the finest yet in the long series of Fetes which annually broadcast the name of the Wistaria Town throughout the length and breadth of the nation.

Their delight echoed the praises of usually biased newspapermen Friday when more than two hundred publishers, editors and staff writers previewed the vine at a gala press luncheon in the new pavilion atop Scenic Point.

Appropriately, traditional Easter colors were provided by yellow umbrellas shading tea tables throughout the grounds and lavender-hued wistaria blooms canopied the broad veranda which formerly was the first floor of the old Fennel home.

Preceding the luncheon the publishers, eager to have a first-hand glimpse of the Scenic Point transformation, spent a good hour inspecting the vine and the premises.

They saw the huge pergola with its living canopy of feathery lavender tendrils. They strolled down past the greenhouses, stocked with rare plants and baby wistaria vines. They inspected the formal rose garden and the Norman Bridge cherimoya tree. They saw row after row of azaleas in all the colors of the rainbow, more than half a dozen varieties of flowering fruit trees and plants, shrubs and flower beds galore, donated to the Memory Garden by well known Sierra Madreans.

Then they walked up the terraced steps in the upper garden, past the lily ponds, and entered the glass-enclosed pavilion, its knotty-pine paneled walls hung with paintings by well-known Sierra Madre artists.

Their hostess was Mrs. W. J. Lawless, the new owner of Scenic Point and through whose efforts, as Toastmaster Al S. Myers pointed out, the present wonderland came into being.

"I like to think of Scenic Point as an expression of the inner woman," he said in gracious tribute to the guiding light of the Wistaria Association.

Also complimented was G. W. Pearson, who had charge of landscaping the property; Mrs. Alyce Anderson, and Mrs. Grace Caukin, secretary and treasurer, respectively, of the Fete Association.

A brief address of welcome was tendered by Mayor H. Clay Reavis and then each table in turn introduced themselves.

Besides newspapermen, the gathering included Manager C. W. Koiner and Directors Robert Dawson and E. H. Munson of Pasadena; Mrs. Herbert C. Legg and daughter; Don Thomas, managing director of the All-Year Club of Southern California; Arcadia and Monrovia councilmen, and many others.

Acquaint now thyself with Him, and be at peace.—Job xxii 21.

The great step and direct path to the fear and awful reverence of God, is to meditate, and with a sedate and silent hush to turn the eyes of the mind inward; there to seek, and with a submissive spirit, wait at the gates of Wisdom's temple.

AN ANNIVERSARY

Twenty years ago, almost to a day, the United States declared war on Germany and the Central Powers. It was the will of the nation. On that fateful April 6 of 1917, all were convinced that it was our solemn duty to help save the world for democracy, to help fight the war to end wars.

So the bands played, the people cheered and waved flags, and the boys marched off to the battle fields of France. They didn't know about shrieking shells and the stabbing pain of a shrapnel wound, about the mud and stench and slaughter of war, and the agony of dying.

Neither did we then. Today we know the World War dealt death to 54,000 of our young men, and wounds to 190,000 more. It brought on the ravages of depression. It left us poorer to the extent of 12 billion dollars in uncollectible debts. Out of it grew the forces that caused democracies to collapse, that sent nations at each others' throats again.

Twenty years ago we had not guessed that this would be the aftermath. Twenty years ago we had not seen men come home blinded or unable to walk, or with lungs ruined from breathing gas; we had not known the sorrow of wives and mothers and friends and relatives of youths who didn't come back.

Today we have seen these things, and have not forgotten. If one senses the temper of the nation aright, America would fight to defend its shores and its homes. But to send our men and money and goods to foreign battlefields again—no. Never again.

We have not forgotten. May we never forget.

COUNTY LEVIES HIGH

Per capita general county taxes for current purposes in Los Angeles county averaged \$12.60 for 1936-37, according to a study recently completed by California Taxpayers' association. In addition to this levy, the association stated, an average of 19 cents per capita was levied for bonds, \$9.06 for current school purposes, \$3.42 for school bonds, and \$1.36 for county special districts. The total for county, school, and special district purposes, exclusive of cities, the association stated, was \$26.63 per capita.

For the state as a whole, the association found that the average per capita levy for general county purposes for 1936-37 was \$11.74, for county bonds 70 cents, for current school purposes \$8.68, for school bonds \$2.87, and for special district taxes \$1.23, the total average per capita taxes levied, exclusive of cities, being \$25.22.

In 24 California counties the total average per capita tax levy, exclusive of cities, was higher than the state average of \$25.22.

LET'S HELP NATURE

No one who has ever breathed in the beauty of the wildflowers spread over California hillsides in blankets of rich color will like to consider the possibility that there may be no wildflowers a decade hence.

But consider it we must. For that calamity will befall, the Wildflower Conservation League tells us, if people go on picking the flowers at the rate they have in past years.

On Saturday the League will meet to launch a movement declaring a three-year closed season on wildflowers. No legislation is to be sought. The appeal will be for a voluntary ban, on the theory that people will respond more willingly to an appeal than to coercion.

Even now the wild iris are almost gone. California's poppy fields, famous in song and story the world over, are greatly diminished. Are we to see them all disappear, simply because people thoughtlessly pick them?

Let's help Nature to keep California beautiful. Let's give the wildflowers a chance!

Gaddin' Around with BILL PEET

BOATING in Sierra Madre? You're darn tootin'! We have it.

Last Sunday in the setting basins at the city water plant, where there is quite some stretch of water, passers by, rubbed eyes as they watched a man rowing about in a small craft.

The oarsman was Judge Tom W. Neale and his boat was a little canvas contraption he built himself, but he showed consummate skill as he tugged at his five foot oars and fairly churned the water.

Judge Neale would rather fish than eat, and he knows how to fish. . . learned how as a boy back in his native state, Tennessee.

"I have lived in Sierra Madre 17 years," Judge Neale told me when he came ashore. "I had everything I needed here except fishing, so I decided to go fishing. I built two canvas boats for this purpose. They can be carried on the back of my automobile, for one weighs 20 pounds and the other 24 pounds. Both boats are seven feet long and one of them I have given to my old friend 'Doc' Woehler, who is also an ardent fisherman. As soon as the law gives us the right to fish, 'Doc' and myself start out bright and early, usually for San Dimas, where there is a flood control basin fairly teeming with trout. We never miss when it comes to hooking 'em, and believe me there is nothing nicer than freshly caught trout when it is cooked right."

The Judge proudly showed me his canvas boat. It is a flimsy little thing made of stout canvas over a well reinforced frame with one seat in the center and a back to the seat, (if you please.) The boat draws four feet of water and weighs 20 pounds exactly.

"Dr. Woehler and myself have had many a good fishing trip," said this disciple of Ike Walton's, "and I might also add that when the good doctor steps into his little boat, he fills it completely—there is no room for anything else. One day while fishing in the flood control basin near San Dimas I saw that 'Doc' was in trouble. His little boat was turning around in circles instead of going ahead. I rowed up and asked him if he needed help, but he replied, 'Hell no—I've got a whale on the end of my line and he's rocking the boat, but I'll get him.' He did, too, and saw probably the biggest trout that had ever been taken out of the basin. The trout was so strong and full of fight that Woehler's boat was pulled around in circles."

With no ballyhoo, a goodly throng flocked to Inspiration Point at Little Santa Anita Canyon for the Easter sunrise service and the event was very impressive. Those who attended left with a feeling that such a superb setting could not be created except by a Supreme Being.

The Wistaria Fete preview was an occasion that will long be remembered by newspapermen, publishers and others affiliated with the Fourth Estate. I want to compliment City Manager Al Myers for doing a good job as master of ceremonies. The speeches were short, snappy and to the point, the cuisine excellent and everybody had a good time.

At the Wistaria Fete I met Lambert Cole a member of the Monrovia City Council, a two-fisted guy with plenty of ideas and a fine personality. He assured me that Monrovia is growing so fast that despite the threats of Arcadia, his city will eventually be recognized as one of the greatest business and shopping centers in this part of California.

TOWN PICKUPS Did you know that we had a small earth quake in Sierra Madre last Thursday? Yep, we did, and Doris Gilhe of THE NEWS staff is sore as a boiled owl. She didn't feel it and wanted so much to write back to the folks in Cherokee, Iowa, that she had actually experienced an earth tremor. . . Fred La Lone is the proud possessor of a set of fishing tackle given him by Townley Johnston, former Pittsburger, who declares that his fishing days are over. Fred expects to yank in a lot of trout with his new outfit this spring. Last week a husky man of about 45, pushed

his way into THE NEWS office and declared that he was Sheriff Peck Hanson of Hancock County Iowa. "I want to see 'Shorty' Ryan," he demanded. . . Ryan is a member of the mechanical department of THE NEWS. . . The boys in the front office figured a "pinch" and tipped off Ryan that he had better make a hasty exit. Instead Ryan came out and greeted the sheriff as a long lost friend. . . Did you know that during the world war Judge Tom Neale was an officer in the Marine Corps? . . . Gene Holliger also served as a Marine. . . The city was full of visitors Sunday, who wanted to take a peek at the famous Wistaria Vine. . . Our firemen gave the kids a real party Saturday. The annual Easter egg hunt, was a great success. . . I was agreeably surprised last Friday when "Mike" McHale sports editor of the Youngstown (Ohio) Telegram called for a brief chat. He was enroute home after a trip to the Orient. . . Many Sierra Madreans Sunday motored to the desert and enjoyed the fields of the Banning and Beaumont districts, fairly alive with blossoming peach and cherry trees. . . Our City Manager Al Myers will soon have that ball park ready for the boys. You've got to hand it to Al, he certainly does things in a big way. . . Sierra Madre churches on Easter were filled to overflowing. That's a good sign, for possibly the world is growing more church conscious.

Scenic Point Home Being Beautifully Decorated

The lovely home of Dr. and Mrs. W. H. Scorns, 214 West Carter, is being beautifully and artistically decorated under the expert planning and supervision of E. S. Wigle, interior decorator from McBratney's department store in Monrovia.

A delightful color scheme of gold, brown and green is carried out in the living room and the adjoining dining room. The neutral tan of the walls and the plain green Tytex broadloom rugs, rich in tone, form the background. Draperies of green, rust and gold, Venetian blinds, in the same neutral tan as the walls, are used on the windows, except the recessed casement windows opening on the terrace, where potted plants are used under the draperies.

The kitchen and breakfast nook carry out a gay note in their theme of red, white and gold. Other rooms of the house are now being completed under the direction of Mr. Wigle, who has charge of the interior decorating for the entire home.

ANTHONY ADVERSE AT ARCADIA THEATRE

"Anthony Adverse," Warner Brothers' version of Hervey Allen's best-seller, starring Fredric March and Olivia De Havilland, is showing today and tomorrow at the Arcadia Theatre. The companion film, "General Spanky," stars Spanky McFarland in his first feature-length picture. The bill includes a color cartoon and Metrophone News.

Opening Sunday and showing through Wednesday is the new MGM edition of "Camille," with Greta Garbo, Robert Taylor and Lionel Barrymore, plus "Dangerous Number," featuring Robert Young and Ann Southern.

"LOVE IS NEWS" NOW AT THE LYRIC THEATRE

"Love Is News," a fast-moving story about a reporter and an heiress, with Loretta Young and Tyrone Powers in the leading roles, opens tomorrow at the Lyric Theatre in Monrovia. "Nancy Steele Is Missing," with Victor McLaglen and June Lang, is the second feature on the bill which is showing through Tuesday.

Opening for a three-day run Wednesday is "Man of the People," with Joseph Calleia and Florence Rice, and "Park Avenue Logger," with George Brent and Beatrice Roberts.

Drunken driving caused the suspension of the driving licenses of 678 persons in California during February. Licenses of 366 persons were revoked, suspended or cancelled for other reasons in the same period.

Dr. Mildred Strubles of Los Angeles, counsels women as follows: "Since 85 per cent of our success is dependent on personality, women should develop it. Emotionalism, cattiness and crying should be banned."

An active drive to reduce the crop-damage toll exacted by ground squirrels and gophers will be conducted this spring as a cooperative undertaking of the county and the WPA.

Gophers are a costly and annoying handicap to farmers, or-

chardists, gardeners, and other property owners, it is pointed out by Harold J. Ryan, county agricultural commissioner, who has charge of the project that will employ 200 workmen from the relief rolls.

Besides damaging crops and trees, the little animals undermine building and highway foundations and disrupt irrigation operations with their burrowings.

If America can get safely through the month of April without making any international squabbles, we'll have little fear of bombs dropping through our roof for another year at least. April, for the United States, is the war month. All wars in our history, save that of 1812, were declared in ominous April—the Revolutionary war on the 19th, the Mexican War on the 25th, the Civil War on the 15th, the Spanish war on the 21st, and the World War on the 8th. On the surface this may seem some mysterious, fateful thing. But really it is not. In April the snows are gone, the roads are drying, and the movement of troops becomes possible.

It will be strictly illegal for the Los Angeles County Flood Control District to acquire 1,700 acres of land along the San Gabriel River, under a purchase plan which would bind the district to pay \$50,000 a year over a period of five years, according to Deputy County Counsel Roy W. Dowds, who told the Board of Supervisors the county must limit its financial transactions to the current year's tax receipts.

Temporarily, the ruling will prevent the purchase of the San Gabriel water spreading grounds inasmuch as the district does not have the \$250,000 on hand this year to make the lump purchase.

Scientists at the University of California are on the trail of the fountain of youth. If they can get a few more "yfs," they believe they'll have found a way to prolong life, perhaps extend it indefinitely. They're seeking to isolate a substance that exists abundantly in the extract of a chicken embryo, the substance that has kept a chicken heart alive in a laboratory for more than 28 years. Once isolated, it may be injected into the blood stream to counteract the effects of the age-producing bodily chemical called lipoid, whose source is not known.

Three Big States To Hold Picnics On The Same Day

Three great states, New York, Washington and Oregon, will hold their picnics in Sycamore Grove Park, all day, Saturday, April 10th, with basket dinners at noon. Each state will have its separate section and will open county registers and headquarters. New Yorkers will occupy the left side of the Park in the main section, Oregon and Washington, right side. There will be a splendid program of music and addresses and each state will be represented by its president.

UPTOWN THEATRE HAS FINE TWIN BILL

The film version of the book that thrilled the world, "Anthony Adverse," is the No. 1 feature now showing at the Pasadena Uptown theatre. The all-star cast includes Fredric March, Olivia De Havilland, Anita Louise and Claude Rains. The supplementary feature is "Mysterious Crossing," starring James Dunn. Showing Sunday and Monday is "Sweet Adeline," featuring Irene Dunne, and a return showing of Hollywood's immortal aviation epic, "Hell's Angels," starring Jean Harlow.

STILL ENROLLING FOR FIRST AID CLASSES

There is still time to enroll in the first aid classes which are meeting every Thursday at 7:30 p.m. at the city hall, the Red Cross chapter pointed out yesterday.

Prospective enrollees are urged to sign up with Joe Swanson at the city hall. The instructor is J. C. Harper of Alhambra.

Huge Planting Job Started At New County Park Here

With 75 WPA workers on the job, planting of some 85,000 shrubs and several hundred trees this week got under way at Ross Field. Work of landscaping and beautifying the 125 acres of park and recreational areas is expected to be completed by July 1.

Start of the planting project brings the number of relief workers employed at the field to about 600. Aside from the planters there are a number of men engaged in laying out an 18-hole golf course, building a swimming pool, tennis courts, baseball diamonds and numerous minor recreational facilities.

All of the plants now being set out were grown in the county forestry department's nursery at Pacoima.

LETTERS From Readers

THE RISING TIDE

Editor, Sierra Madre News:

The rising tide of opposition to the President's amazing scheme for judicial reform is a most hopeful sign, but it is not yet strong enough. It should be an overwhelming, devastating, wave of indignation. Every man and every woman in the Nation who loves their country, should feel a sense of outrage that their chosen leader should seek to set himself up as their master, instead of the servant of all other citizens.

The proposal would be entirely ridiculous if it were not so very dangerous. It is dangerous because support for it—and anything else the President wants—has been purchased, and purchased with the taxpayers' money.

It has been purchased with alphabetical checks of all discriptions . . . with relief money, with WPA money, with checks and checks and checks, and with patronage and promises, to the tune of billions and billions of dollars, and—make no mistake—which the workers must pay.

We are witnessing the sorriest sight of all history, the debauching of a Nation. History records only one parallel—the debauch of Rome—when the populace were fed from the treasury till they refused to work, and Rome perished.

O, the venality of him who seeks to get something for nothing. He is selling his most priceless possession, his liberty of action and his free enterprise for a bauble, and will live to curse the day he was beguiled by a bland smile and a soothing voice, when he traded precious realities for the platitudes of demagogues.

Compare the inspired patriotism of Washington, or Lincoln, or Jackson, or Cleveland, or Carter Glass, or McKinley, or Woodrow Wilson, with the silly twaddle of sycophants and "yes-men" of today.

This is the greatest country and the finest government on earth. Why permit it to be changed? If you don't believe that, try living in some foreign country. Any foreign country. You can see and feel and taste and smell the difference when you step back across the line.

The rabble crucified Jesus because, as he said, "they know not what they do." So if our country is to be crucified, it will be because of the ignorance of the rabble. Whom will ye now have—Christ or Barabbas.

We Are Pleased To Announce:

On March 1st we voluntarily reduced the daily WORKING HOURS of ALL EMPLOYEES and introduced the novel plan (in the food business) of giving each worker a half day off during the week, thus placing all employees on a 5 1/2 DAY WEEK. Earnings have not been reduced, but on the contrary, we have continued to advance the wages of all whose ability and period of service justify it. Since last December all persons in the employ of Roberts Market for a period of 6 months have received without cost to them a life insurance policy of from \$1000 to \$2500, depending upon the capacity in which they are employed. . . Roberts Market solicits your continued patronage on the principle of shorter hours and improved working conditions—and on the basis of closing their store Sundays, nights and major holidays. Kids Easter Party Is A Gay Affair

Many Of The 550 Participants Win Prizes In Many Egg Events

The gayest of the Easter parties yet staged for boys and girls of Sierra Madre was held in City Park Saturday. It was under the auspices of the firemen and brought out a record crowd.

Following the egg hunt, the search for eggs cleverly hidden in shrubbery and unexpected places came the races for prizes. Five hundred and fifty baskets filled with eggs and candy were distributed so that every kid was well rewarded. Joe Swanson was master of ceremonies and the program was presented without a hitch.

The opening event, a knee race for boys and girls under 3 years, was won by Bobby Collins and Maryleen Garcia.

The egg and spoon race on knees was a spirited event. Lucille Smedley won for the girls and William Annas, the boys. This event was for kids four years and under.

A three furlong affair, egg and spoon on knees, was won by Nobrigo Umekubo and Jack Hudson Naley.

The race for boys and girls eight years old and under, calling for spoon in mouth with egg balanced, went to Yoshiko Umekubo and Manuel Haraze. The distance was three and one-half furlongs.

The fifth race, a four furlong affair, was won by Margaret Richter and David Stewart. It was for boys and girls 10 years and under and required balancing an egg on a spoon.

The final event for all 12 years and under, spoon in hand balancing one egg, with other hand behind back, went to Elizabeth Jackson, while Junior Grippi won for the boys. The distance was five furlongs.

"Pop" Wilder and his lazy-T Ranch boys furnished the music and after the races dancing was enjoyed until 5 o'clock.

Preceding the program, teachers and students will hold open house, commencing at 7 p.m. Classes will be run off at ten minute intervals, offering parents a behind-the-scenes glimpse of school activities.

Sales Of Nurseries Zoom As Southland Builds And Plants

Sales of nursery stock for landscaping purposes has established a 5-year record in Los Angeles county this spring, according to Harold J. Ryan, county agricultural commissioner.

Home building on the most ambitious scale in recent years has combined with necessity for replacement of frost-damaged ornamental and other trees and shrubs to cause the heavy movement of a wide variety of stock, Ryan pointed out.

GLORY OF SIERRA MADRE AND ITS GREAT WISTARIA TOLD IN NATIONAL MAGAZINES

OLD and little-known facts
about Sierra Madre's giant
Chinese wistaria vine, to-
gether with a history of the
Scenic Point festivals which an-
nually attract visitors from vir-
tually every state in the Union,
are told in a feature illustra-
ted article in the April issue of
the florists' national magazine,
"Telegraph Delivery Service,"
published monthly at Los Angeles
and distributed to florists, gar-
deners and growers all over
America.

The writer, William W. Greene
points out that both David Lloyd
George and the Duke of Man-
chester know of Sierra Madre's
vine and have sought to culti-
vate wistaria vines on their Eng-
lish estates.

"Seeding plants from the mam-
moth vine," Greene writes, "have
been sent to many parts of the
country. A few years ago a nur-
sery firm in Florida obtained a
large number of scions for graft-
ing, and splendid success in grow-
ing them has been reported."

"The wistaria vine in full
bloom presents a particularly
Oriental effect. Nobles and lov-
eliest of the woody vines, it be-
long to the bean family, and
usually does not blossom until
seven years old. Hardy and adap-
table, it grows luxuriantly from
Maine to the Gulf of Mexico, in
the Mid-west and the Far west.

There are two recognized species
in America, while in Asia there
are four. The Sierra Madre vine
is of the Chinese variety (W.
sinesis), with thick bloom clus-
ters of two shades of violet-lav-
ender, and has never been grafted
with any other kind.

"This giant wistaria, which for
more than a quarter of a cen-
tury has apparently enhanced the
charm and increased the fame of
fair Sierra Madre—long known
as 'Wistaria Town'—is be-
lieved to be the largest speci-
men on earth."

The writer sketches a vivid
word-picture of "the romantic
loveliness of a balmy day in
early April when I first saw this
marvel of the floral world. At
our feet was a carpet of delicate,
lavender-hued petals; above our
heads an intriguing canopy of
flowery loveliness, where brilliant
butterflies were sailing and birds
sat undisturbed upon their nests
in the foliage. The hum of bees
in the warm sunshine made a
pleasant accompaniment to the
lively chatter of voices as several
hundred people strolled through
the arbors. Music that was soft

and sweet floated out under the
pergolas. . .

Noble Defends The Alberta Plan; Asks Transaction Tax

The Alberta, Canada, social
credit government and the recent
experimental test of the Town-
send Plan at Chelan, Wash., were
discussed by Robert Noble, ad-
vocate of the "25 Every Monday
Morning" pension plan, at Trin-
ity Auditorium Saturday night.

Present were a number of
Noble's Sierra Madre followers.
Noble declared "much progress"
is being made by the Alberta
plan, principles of which, he said,
are involved in his own "25"
plan. He asserted the "masses of
the people" are behind the pres-
ent government there, and con-
tended that the opposition comes
from "large financial and indus-
trial interests."

Youngsters Playing Steamboat Fall Into Police Clutches

Five youngsters between the
ages of 6 and 11 celebrated
Easter morning in typical kid
fashion.

They adjourned to the city's
settling basins on East Grand
view avenue and spent a happy
couple of hours paddling, playing
at steamboat and opening and
shutting the water gates. It was
great sport, but Al Freeland of
the water department had dif-
ferent ideas. He rounded up the
quintet, brought them into the
police station and turned them
over to Officer James Heasley.

After a severe reprimand and
the dreaded warning that their
parents would be notified, the
kids were "released."

Police yesterday broadcast an
appeal to parents to discourage
their young hopefuls from using
the settling basins as a public
playground.

TIING RAINFALL RECORD HERE IS BIG JOB FOR J. PLUVIUS

WHILE this winter's long
rainy spell already has de-
luded the city with nearly
33 inches of precipitation, Jupi-
ter Pluvius will have to stretch
himself to beat some of his pre-
vious records hung up in Sierra
Madre, a comparison of rainfall
figures here since 1888 showed
yesterday.

Before the current season can
be classed as "unprecedented,"
more than 16 inches of precipi-
tation will have to fall between
now and next September 1.
Thirty-three inches—this season's
total up to now—is a lot of rain,
but it's way under the total for
the season of 1889-90. In
that year the city had its face
washed to the tune of 48.61
inches!

Including the season of 1889-90
there have been ten seasons when
precipitation totals surpassed this
year's figure.

Second highest fall ever re-
corded here was in 1913-14 when
a total of 45.16 inches kept the
dust off Sierra Madre roofs.

Longest rainy spell occurred be-
tween 1904 and 1907. Total for
1904-05 was 35.89 inches; for

1905-06, 34.96 inches, and for
1906-07, 41.04 inches, this being
the third heaviest seasonal fall.

Other "wet" seasons were in
1892-93, with 36.06 inches; 1908-
09, 38.20 inches; 1910-11, 33.94
inches; 1921-22, 38.86 inches, and
1926-27, 36.57 inches.

The seasonal average over the
42-year span from 1888 to 1930
is 24.81 inches.

In contrast to the "deluge" of
1889-90 was the season of 1898-
99. Only 8.34 inches fell that
year, making an all-time low
here. The season of 1923-24 was
a close second, with only 10.04
inches.

Fire Flames

By One of the Boys

WHEN the firemen went out
for drill on Friday evening,
they had orders from Chief
Richards to remove all the old
hose from the big truck. The old
hose was to be thoroughly tested
and sorted and then new hose
placed on the bottom of the
truck. Much of the old stuff was
unable to stand high pressure
pumping. Shorty Steinberger
acted as engineer at the pumps
and proved to be capable. Hose
was stretched from Hermosa to
Lima street.

At the filling station, where
the trucks are supplied with gaso-
line, Bob Rigney, the handsome
sidekick of "Shorty," displayed
what he called a wonderful dog.
The pup was about the size of
a full grown field mouse but
Bob had it harnessed like a fer-
ocious lion. While Rigney was
servicing the fire truck's battery,
one of the boys noticed that Bob
had had a premature visit from
the Easter Bunny. Down deep in
the corner of his battery equip-
ment box lay two lovely Easter
eggs.

During the meeting, the 100%
attendance listened attentively to
the reading of the new constitu-
tion as read by Gordon McMil-
lan. His voice weakened in spots,
but the entire reading was ac-
complished without mishap. Sev-
eral visitors attended the meet-
ing, which filled the "quarters"
to the walls. The visitors were
guests of the firemen. Acting as
"Feed-Host," Vern Udell spread
the tables with eats that would
tempt the appetites of the most
finicky.

Mrs. Florence Eakman will be
heard over radio station KGFJ
Sunday with her husband, Francis
Eakman in vocal numbers accom-
panied by Katharine Wissler, at
the piano.

Monday, April 5th, at 3 o'clock
a special meeting of unit offi-
cers and chairmen will be held
at the home of President Love-
joy, 74 West Grand View avenue.
Reports are to be compiled on
unit activities since July 10, 1936
up to the present. This is of vi-
tal importance, since we wish the

Sierra Madre News :

Dear Editor:

I am writing this on my personal stationery, just finished in The News Printery, to let you know that I am more than pleased with such neat, well finished work. With the perfect spacing, even color and fine quality of paper it is a thoroughly workman-like job. I think it is beautiful and the price was very reasonable.

Sierra Madreans should be proud that they have an establishment capable of turning out such work and should patronize their own Sierra Madre printery, for I am confident they will find no better work anywhere.

I want also to thank you and all employees of The News for the uniformly pleasant, courteous treatment that has been accorded me every time I have visited The News Office.

Scenic Point Home Being Beautifully Decorated

The lovely home of Dr. and Mrs. W. H. Scoins, 214 West Carter, is being beautifully and artistically decorated under the expert planning and supervision of E. S. Wigle, interior decorator from McBratney's department store in Monrovia.

A delightful color scheme of gold, brown and green is carried out in the living room and the adjoining dining room. The neutral tan of the walls and the plain green Tytex broadloom rugs, rich in tone, form the background. Draperies of green, rust and gold, Venetian blinds, in the same neutral tan as the walls, are used on the windows, except the recessed casement windows opening on the terrace, where pongee draw curtains are used under the draperies.

The kitchen and breakfast nook carry out a gay note in their theme of red, white and gold. Other rooms of the house are now being completed under the direction of Mr. Wigle, who has charge of the interior decorating for the entire home.

STILL ENROLLING FOR FIRST AID CLASSES

There is still time to enroll in the first aid classes which are meeting every Thursday at 7:30 p.m. at the city hall, the Red Cross chapter pointed out yesterday.

Prospective enrollees are urged to sign up with Joe Swanson at the city hall. The instructor is J. C. Harper of Alhambra.

Huge Planting Job Started At New County Park Here

With 75 WPA workers on the job, planting of some 85,000 shrubs and several hundred trees this week got under way at Ross Field. Work of landscaping and beautifying the 125 acres of park and recreational areas is expected to be completed by July 1.

Start of the planting project brings the number of relief workers employed at the field to about 600. Aside from the planters there are a number of men engaged in laying out an 18-hole golf course, building a swimming pool, tennis courts, baseball diamonds and numerous minor recreational facilities.

All of the plants now being set out were grown in the county forestry department's nursery at Pacoima.

H. F. BARTON'S FETED ON EARTH ANNIVERSARY

Open house at the home of their daughter and son-in-law, Mr. and Mrs. D. R. Urquhart in Pasadena, Tuesday afternoon, celebrated the golden wedding anniversary of Mr. and Mrs. H. F. Barton, 252 Ramona avenue. Assisting at the reception were Mr. and Mrs. A. B. Barton of Pasadena, son and daughter-in-law of Mr. and Mrs. H. F. Barton.

Choosing to wear a gown of the same color and style, gray with maroon accessories, as she did 50 years ago for her going away ensemble, Mrs. Barton with her husband welcomed the guests. A buffet luncheon was served to nearly 100 friends and relatives at the beautifully appointed buffet table, yellow and white predominating, yellow daffodils and white iris and lighted candles centering the table. Two cakes at either end of the table, one, topped with a miniature bride and groom and the other a large golden cake, featured the luncheon. Serving at the table were the Barton's two granddaughters, Mrs. Eva Waters of Santa Maria and Mrs. Donald Lutz of Los Angeles and their daughter-in-law Mrs. Zelda Barton of Pasadena. Four generations of the family were represented, with the eldest of each family being present. Another happy feature of the celebration was the presence of Mrs. Barton's sister, Mrs. Etheline Costegon of Highland Park; her aunt, Mrs. Eugenia Appleby of Los Angeles, and F. D. Steven-

To the Editor of the
Sierra Madre News :

Dear Editor:

I am writing this on my personal stationery, just finished in The News Printery, to let you know that I am more than pleased with such neat, well finished work. With the perfect spacing, even color and fine quality of paper it is a thoroughly workman-like job. I think it is beautiful and the price was very reasonable.

Sierra Madreans should be proud that they have an establishment capable of turning out such work and should patronize their own Sierra Madre printery, for I am confident they will find no better work anywhere.

I want also to thank you and all employees of The News for the uniformly pleasant, courteous treatment that has been accorded me every time I have visited The News Office.

TIING RAINFALL RECORD HERE IS BIG JOB FOR J. PLUVIUS

WHILE this winter's long
rainy spell already has de-
luded the city with nearly
33 inches of precipitation, Jupi-
ter Pluvius will have to stretch
himself to beat some of his pre-
vious records hung up in Sierra
Madre, a comparison of rainfall

figures here since 1888 showed
yesterday.

Before the current season can
be classed as "unprecedented,"
more than 16 inches of precipi-
tation will have to fall between
now and next September 1.
Thirty-three inches—this season's
total up to now—is a lot of
rain, but it's way under the total
for the season of 1889-90. In
that year the city had its face
washed to the tune of 48.61
inches!

Including the season of 1889-90
there have been ten seasons when
precipitation totals surpassed this
year's figure.

Second highest fall ever re-
corded here was in 1913-14 when
a total of 45.16 inches kept the
dust off Sierra Madre roofs.

Longest rainy spell occurred be-
tween 1904 and 1907. Total for
1904-05 was 35.89 inches; for
1905-06, 34.96 inches, and for
1906-07, 41.04 inches, this being
the third heaviest seasonal fall.

Other "wet" seasons were in
1892-93, with 36.06 inches; 1908-
09, 38.20 inches; 1910-11, 33.94
inches; 1921-22, 38.86 inches, and
1926-27, 36.57 inches.

The seasonal average over the
42-year span from 1888 to 1930
is 24.81 inches.
In contrast to the "deluge" of
1889-90 was the season of 1898-
99. Only 8.34 inches fell that
year, making an all-time low
here. The season of 1923-24 was
a close second, with only 10.04
inches.

Sales Of Nurseries Zoom As Southland Builds And Plants

Sales of nursery stock for
landscaping purposes has estab-
lished a 5-year record in Los An-
geles county this spring, accord-
ing to Harold J. Ryan, county ag-
ricultural commissioner.

Home building on the most am-
bitious scale in recent years has
combined with necessity for re-
placement of frost-damaged or-
namental and other trees and
shrubs to cause the heavy move-
ment of a wide variety of stock,
Ryan pointed out.

Bring your building prob-
lems to us like many other
Sierra Madre people have
done. We can develop your
job from the original idea to
the delivery of a completed
home.
